DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 20 May 2008 has been entered.

Claims 1, 2, and 3 have been amended. Claim 51 has been canceled.

2. Claims 1-12, 14-18, and 27-50 are pending. Claims 28-45 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention.
3. Claims 1-12, 14-18, 27, and 46-50 are under consideration.

Rejections Withdrawn or Moot

4. The rejection of claim 51 under 35 U.S.C. 112, second paragraph, as being indefinite for "immunologically equivalent" is moot in light of the cancellation of the claim.
5. The rejection of claim 51 under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement, is moot in light of the cancellation of the claim.

Rejections Maintained

6. The rejection of claims 1-12, 14-18, 27 and 46-50 under 35 U.S.C. 112, second paragraph, as being indefinite for "immunologically equivalent" is maintained.

Applicants argue that in light of the teachings of the specification, "immunologically equivalent" is clear.

The examiner has considered applicants' argument, but does not find it persuasive because the claims remain drawn to a substantially pure polypeptide of any length (a longer polypolypeptide) and the specification does not define the term for this type of embodiment.

Claim Objections

7. Claims 1, 2, and 3 are objected to because of the following informalities: line 2 "peptide" should be "peptide". Appropriate correction is required.

Claim Rejections - 35 USC § 112

8. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

9. Claims 1-12, 14-18, 27 and 46-50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, 2, and 3 are drawn to a substantially pure polypeptide selected from a group consisting of defined number of amino acid, and "a longer polypeptide".

It is unclear what are the metes and bounds of "a longer polypeptide". The specification does not define the term. Claims 4-12, 14-18, and 46-50 depend from the claims, but do not clarify the matter.

Conclusion

10. No claims are allowed.
